

PASS 26
ENGINEERING & DESIGN

Tidy, Precise and with Quality

We offer Outsourcing Services, Specialized in Architecture, Structural and Civil engineering, from BIM and Rendering to Complete Project Design. We're committed to maintain high standards and strive our projects to be with utmost quality.

PASS 26
ENGINEERING & DESIGN

Our Services

Our areas of expertise include implementation of BIM processes and standards throughout project life cycle. BIM Training, BIM Content Creation, BIM Modeling, Coordination, Fabrication, Rendering and Facility Management.

No-Risk Trial

We offer a trial period to decide whether our services meet your needs. If you don't find them a match, you will not be charged (and you can even keep any work completed during the trial).

Contents

1. Architecture Design Projects

- Residential Buildings	4
- Residential Buildings	5
- BIM Models and Detailing	6
- BIM Models and Detailing	7
- Rendering Portfolio.....	8

2. Structural Design Projects

- Structural Design and Detailing	9
- Structural Design and Detailing	10
- Steel Structural Detailing	11
- Steel Structural Detailing	12

3. MEP Projects

- Mep Modeling and Detailing	13
- Mep Modeling and Detailing	14

Architectural Design Projects

Residential Buildings

Generating 3D Architectural and Structural models, preparation of 2D Architectural and Structural plans, high quality renders, drawings, detailing solutions and generating complete project documentations and material takeoffs.

Software: Revit, Lumion

Architectural Design Projects

Residential Buildings

Generating 3D Structural and Architectural models, preparation of 2D plans, high quality detail drawings, and generating complete project documentations and material takeoffs.

Software: Revit, AutoCAD, Lumion

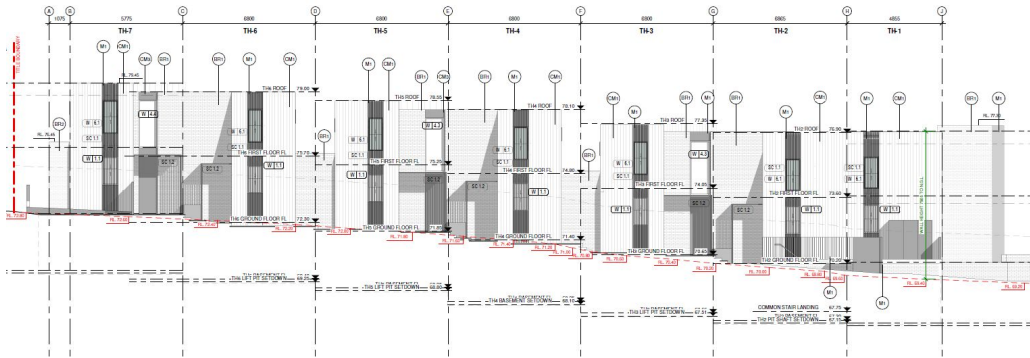

BIM Project Support

BIM Models and Detailing

Generating 3D Architectural and Structural models, preparation of 2D Architectural and Structural plans, high quality renders, drawings, detailing solutions and generating complete project documentations and material takeoffs.

Software: Revit, Lumion

BIM Project Support

BIM Models and Detailing

Generating 3D Structural and Architectural models, preparation of 2D plans, high quality detail drawings, and generating complete project documentations and material takeoffs.

Software: Revit

[CLICK TO SEE OUR RENDERING PORTFOLIO](#)

Structural Design Projects

Steel Structural Detailing

Generating 3d Structural models for structural detailing and clash detections, preparation of detailed plans, drawings and generating complete project documentations and material takeoffs.

Software: Advance Steel, Tekla

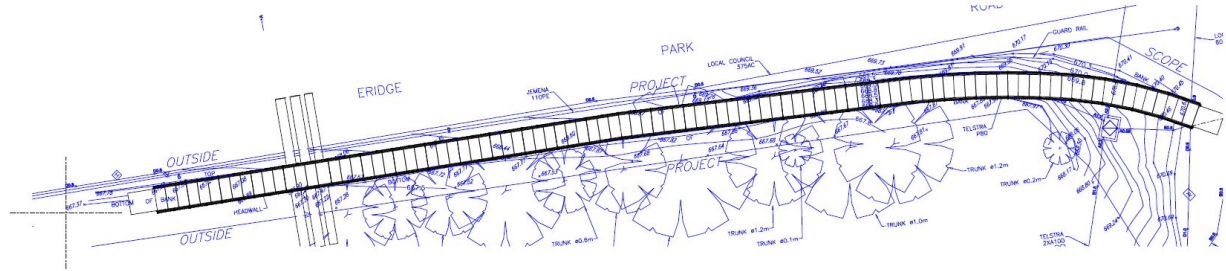

Structural Design Projects

Steel Structural Detailing

Generating 3d Structural models for structural detailing and clash detections, preparation of detailed plans, drawings and generating complete project documentations and material takeoffs.

Software: Advance Steel, Tekla

PLAN VIEW (WALKWAY POSITIONING) - SCALE: 1:150

PASS 26
ENGINEERING & DESIGN

Our Team

Our team is defined by its unusual mix of people, that contribute to the company values in their own and original way. Our team is defined by Engineers, Architects and Technicians all committed to their profession, a team that enjoys its work and dreams of creating. Our goal is to design places that make a positive difference in the world. That's why people are at the heart of everything we do. We work as a team, we exchange knowledge, solve problems together and most importantly we create together!
